When you first come onto the site, you're presented w/ a form to fill out information that is filled in a database (same info as Previs)

- TOP 5 favorite anime
- Favorite anime character (pic)
- Favorite anime
- Preferences

General Concept: You swipe on Profiles that display their tastes in anime, favorite characters, etc.

- If you match, you can chat/message
- You can choose if Profiles with the same, differing, or either preference is displayed.
- Security is handled w/ username and password, Possible 2 factor authentication (?) as there is PII stored (DOB).
